## ABOUT ME

Innovative and results-driven Senior Web Developer with over 9 years of experience specializing in scripting and SQL database development. Expertise in building scalable, high-performance web applications with a strong focus on JavaScript, Angular, MySQL, and modern development practices. Adept at optimizing SQL queries and implementing robust APIs for seamless data interaction. Currently contributing to a product-based company with an emphasis on performance, data handling, and maintainability. Self-motivated, adaptable, and committed to continuous learning, with a strong foundation in web application development

## PROFILE HIGHLIGHTS

- Over 9 years of experience in web development across both product-based and service-oriented organizations

- 30 months of on-site project experience in Malaysia and Singapore, contributing directly to client-facing initiatives

- Extensive experience in JavaScript and TypeScript for building dynamic applications. Proficient in MySQL for crafting complex, high-performance queries and handling real-time data. Skilled in RESTful API development, Stripe integration, and working with PHP, Laravel, Angular 8+ and Ionic 4+

- Proficient in developing web and mobile applications, with expertise in SQL and database-driven development, ensuring efficient data handling.

- Driven by personal interest, I am learning stock market fundamentals, analyzing stocks, and investing to enhance my understanding of financial markets

- Strong technical foundation in scalable web development and data optimization, with a keen interest in applying these skills to fintech and trading platforms.

## ⚙ KEY PROJECTS
### PROJECT 1: TAIGHA CRM – GENERAL-PURPOSE CRM PLATFORM (WEB & MOBILE APPLICATION)

*Role:* Sr. Web Developer & Team Lead

*Url:* www.taigha.com      *Mobile App:* Taigha - Play Store
www.krishnarealty.com      Taigha - App Store

*Skills:* JavaScript (ES6+), TypeScript, MySQL, SQL Query Optimization (Querying & Tuning), PHP, Laravel, REST API, Angular 12, Ionic 5, HTML5, CSS3, Bootstrap 5, Material UI, Stripe, AWS, Figma, SEO Analytics, Google Ads, Team Leadership, Project Planning, Stakeholder Coordination

*Responsibilities:*

- Leading a cross-functional team of developers and designers, overseeing end-to-end project development and ensuring timely delivery

- Optimized SQL queries and improved page speed for Taigha's web and mobile applications by enhancing performance, scalability, and code efficiency while maintaining development standards and user experience.

- Coordinating closely with stakeholders to gather requirements and provide updates, while conducting market research, user analysis, and competitor benchmarking to validate early concepts and adapt a general-purpose CRM into tailored solutions for schools, insurance, real estate, and other key sectors.

- Performing ongoing traffic analysis, SEO keyword research, and optimization using analytics tools, while supporting digital marketing initiatives and managing Google Ads campaigns to boost product visibility and user engagement

- Collaborating with the AWS and server teams to ensure application security, performance optimization,and smooth deployment workflows

### PROJECT 2: MCONNECT OMNICHANNEL (WEB APPLICATION - VOIP PRODUCT)

*Role:* Sr. Web Developer      *Url:* www.mconnectapps.com

*Skills:* JavaScript (ES6+), TypeScript, MySQL, SQL Query Optimization (Querying & Tuning), PHP, Laravel, REST API, Angular 8, Ionic 4, HTML5, CSS3, Bootstrap 5, Material UI, Wireframe Design

*Responsibilities:*

- Participated in on-site client discussions to clarify requirements, define project scope, and ensure alignment with business needs

- Initiated and developed the project using Angular and modern JavaScript tools, optimizing SQL queries for performance, developing and integrating APIs, and ensuring seamless execution from planning to final deployment. Managed project documentation and implemented creative solutions to enhance functionality.
- Successfully delivered the mConnect Omnichannel project, tailored for 3CX call centers with custom wallboards, call handling, and live chat. Developed and integrated VoIP products (3CX) to ensure seamless communication features

- Collaborated with clients and vendors on-site in Malaysia, Singapore, and internationally, ensuring product alignment with business objectives while tailoring solutions to meet client requirements
